

We have a complete inventory of tooling to suit any project's needs. HDD contractors have trusted Melfred Borzall tools for versatile selection, dependable quality and outstanding value. After more than half a century of ongoing development and innovation, Melfred Borzall's HDD tools continue to lead the industry with quality construction, productive designs and value pricing.

Cetco offers a diverse line of polymers and additives to assist contractors in the most difficult soil conditions. Cetco polymers and additives consistently deliver the highest performance, therefore adding significant value. Cetco's high quality drilling fluids will keep operators running at peak efficiency. All Cetco bentonite based drilling fluids are made of the highest quality sodium bentonite from Wyoming.

Hunting's complete trenchless technology product range includes HIWS1 HDD Drill pipe, HXT HDD drill pipe, tooling products and conversion roadmaps. Hunting pioneered the one-piece, upset-forged design around a zero-fail philosophy. From raw materials to final machining, every stick of Hunting drill pipe and tooling is built to tougher standards than any other pipe in the industry.

We have a complete range of fusion equipment to fuse polyethylene pipe from 1/2" to 36" for any applications including water, sewer, gas, industrial, mining, and more. Featuring Pitbulls, TracStars, and original wheeled units, we have a polyethylene machine for every Socket, Sidewall, and Butt Fusion application.

Rental Equipment is Available. Call for Quote.

Mud Motors

We stock rental mud motors from 3" to 8-1/2". They are high performance motors designed specifically for HDD. They can be operated at a slower speed that is more compatible with tri-cone bits. Rebuild costs are factored into rental rate.

Falcon locating equipment is the world's leading locating system. With thousands of frequencies to choose from, it will help with the most difficult of jobs. Trade in your old system today.

Grundomat pneumatic piercing tools have been providing accurate horizontal bores beneath roads, railways, and landscaping across North America and around the world for nearly 45 years. Water, gas, sewer and electrical industries have all benefited from this work horse of trenchless technology. Minimal operating space is required and the tool serves as a complement, and in many situations an economical alternative to larger more expensive directional drilling equipment.

Transmitter Batteries – We offer 3.6 volt double C cell batteries for your locating systems. These batteries have 2 to 6 times the capacity of two alkaline C cells in series.

We offer a variety of different tri-cone and PDC bits to fit your formation. They offer both new and quality re-run sealed bearing bits.

Hole openers can be custom built to customers specifications; with just about any cutter or thread configuration. You can choose from new or re-run cones to different sized centralizers. We can also rebuild used hole openers at a fraction of the cost.

Railhead Underground Products, LLC is the leading manufacturer of the world's best quality drilling tools for the horizontal drilling industry.
